

TOWN OF MOREHEAD CITY
CONTRACTED SOLID WASTE COLLECTION
DURING STORM EVENTS

The preparation and response plan for contracted solid waste collection is dependent on the operational schedule of the Coastal Regional Solid Waste Authority (CRSWMA). This is critical to the ability to complete/start collection routes during storm events.

For Thursday's pickup....Will pickup trash until 11:00 am, will dump trucks at CRSWMA (landfill) then proceed back to Morehead to continue until trucks are full again. If trash pickup for Thursday is not completed it will be finished on Friday.

Friday's pickup will be started on Friday (depending on completion of Thursday route) and if Friday is not finished on Friday it will be finished on Saturday.
